

NZ Funds

KiwiSaver Scheme

Product Disclosure Statement

Issued by New Zealand Funds Management Limited 3 December 2021

This document replaces the Product Disclosure Statement dated 30 August 2021.

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on disclose-register.companiesoffice.govt.nz. New Zealand Funds Management Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013. You can also seek advice from a financial advice provider to help you to make an investment decision.

NZFunds

Transforming Wealth

1. Key information summary

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments.

New Zealand Funds Management Limited (NZ Funds, we, us or our) will invest your money and charge you a fee for its services.

The returns you receive are dependent on the investment decisions of NZ Funds and the performance of the investments.

The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

How can you get your money out?

KiwiSaver is designed to help you save for retirement. Unless you satisfy one of the early withdrawal criteria, you cannot withdraw your investment until you reach the age of eligibility for New Zealand Superannuation (currently 65).

You may apply to make an early withdrawal in limited circumstances including first home purchase, significant financial hardship, or serious illness.

In certain circumstances, NZ Funds may defer or suspend withdrawals. See section 2 of this PDS 'How does this investment work?' on page 6 for more information.

What will your money be invested in?

The NZ Funds KiwiSaver Scheme (Scheme) offers five investment options: a passively managed Balanced Fund; three actively managed Strategies (Self Select) and a life cycle automated asset allocation option (Life Cycle).

These investment options are summarised in the table on page 4. More information about the investment target and strategy for each investment option is provided on pages 10 and 11.

How will your investment be taxed?

The Scheme is a Portfolio Investment Entity (PIE). The amount of tax you pay in respect of a PIE is based on your prescribed investor rate (PIR).

To determine your PIR, go to www.ird.govt.nz/roles/portfolio-investment-entities/using-prescribed-investor-rates. See section 6 of this PDS 'What taxes will you pay?' on page 15 for more information.

Who manages the NZ Funds KiwiSaver Scheme?

NZ Funds is the manager of the Scheme. See section 7 of this Product Disclosure Statement (PDS) 'Who is involved?' on page 15 for more information.

Where can you find more key information?

NZ Funds publishes Quarterly Fund Updates for each investment option.

The updates show the returns and the total fees actually charged to investors during the previous year.

The latest Quarterly Fund Updates are available at www.nzfunds.co.nz. NZ Funds will also give you copies of these documents on request.

Comparing our investment options

Name	Objective	Description	Risk indicator	Estimated annual fund charges ^{3,4,5}	Estimated annual fund charges after fee rebate ^{3,4,5} Total invested > \$1 million
Balanced Fund¹					
Balanced Fund	To provide an entry level option, which uses a passive investment approach to gain exposure to a balanced mix of income and growth assets.	Anticipated to mainly own New Zealand, Australian and international bonds and shares ⁶ over the minimum suggested investment timeframe.		0.00%	0.00%
Self Select					
Income Strategy	To generate income by investing in a range of income producing assets and other assets in a way that seeks to mitigate the downside through active management.	Anticipated to mainly own and trade New Zealand, Australian and international bonds and other authorised asset classes ⁶ over the minimum suggested investment timeframe.		1.12%	1.12%
Inflation Strategy	To mitigate the impact of inflation on your investment over the medium and/or long term through active management.	Anticipated to mainly own and trade New Zealand, Australian and international bonds and shares and other authorised asset classes ⁶ over the minimum suggested investment timeframe.		1.42%	1.25%
Growth Strategy	To grow your investment over the long term through active management.	Anticipated to mainly own and trade New Zealand, Australian and international shares, hedge funds and other authorised asset classes ⁶ over the minimum suggested investment timeframe.		1.65%	1.25%
Life Cycle (default option)²					
Life Cycle Age 0-54		Income Strategy 5% Inflation Strategy 10% Growth Strategy 85%		1.60%	1.24%
Life Cycle At age 65	To allocate your investment across the three Strategies based on your age.	Income Strategy 27% Inflation Strategy 34% Growth Strategy 39%		1.43%	1.21%
Life Cycle At age 75		Income Strategy 35% Inflation Strategy 34% Growth Strategy 31%		1.39%	1.20%

If you are 18 or over, there is an administration fee of \$29.76 a year.

NZ Funds currently rebates fees incurred by Members under the age of 18. See page 14 for more information.

See page 11 for an explanation of the risk indicator and page 12 for information about other risks that are not included in the risk indicator. To help you clarify your attitude to risk, seek financial advice or work out your risk profile at www.nzfunds.co.nz/AdviceSolutions/RiskProfile/.

1. The Balanced Fund has not been in existence for a full five years to 30 September 2021. Accordingly, the risk indicator uses returns based on a market index as well as actual returns. Market index returns have been used for the period prior to 30 August 2021. As a result, the risk indicator may be a less reliable indicator of the potential future volatility of the Balanced Fund. 2. Life Cycle automatically allocates your investment across the Strategies each year based on your age. We have selected three examples (age 0-54, at age 65 and at age 75) to provide information on Life Cycle in this PDS. More information on Life Cycle can be found on page 8. 3. As a percentage of the net asset value of the Balanced Fund or each Strategy. 4. Includes estimated performance fees, where applicable. See page 13 for more information. 5. If you invest more than \$1 million in funds offered by NZ Funds, a fee rebate will apply. The fund charges shown are after this fee rebate. See pages 13 and 14 for more information. 6. See pages 10 and 11 for the authorised asset classes and target investment mix for the Balanced Fund or each Strategy.

2. How does this investment work?

Legal structure

The Scheme is registered under the Financial Markets Conduct Act 2013 (FMC Act) as a KiwiSaver scheme and is governed by a trust deed (Trust Deed) between NZ Funds and The New Zealand Guardian Trust Company Limited (Supervisor).

The Scheme is designed to help you save for retirement. You contribute to the Scheme over time and the benefits payable depend on the amount of contributions made by you, your employer and the Government, and the investment returns on those contributions after fees and tax.

The Scheme is made up of one Balanced Fund and three Strategies. The money you invest into the Balanced Fund or a Strategy is pooled with other investors' money to purchase assets. You will receive units in the Balanced Fund or the Strategy that you invest in, which represent your interest in the Balanced Fund or that Strategy.

The units do not give you legal ownership of the Balanced Fund's or Strategy's assets but they give you the right to a share of any returns from those assets. The assets of the Balanced Fund or a Strategy are not available to meet the liabilities of any other Strategy or Fund in the Scheme.

The number of units you receive is based on the Balanced Fund's or Strategy's unit price. The performance of your investment will be measured by the rise or fall of the unit price.

No person guarantees the performance of this Scheme, including any returns or repayment of your investment. There is no Government guarantee for any KiwiSaver scheme or for the Balanced Fund or any Strategy that you invest in.

Features and benefits

Some of the features of this offer, including the use of derivatives and leverage, may mean an investment in this Scheme is not appropriate for you. We recommend you discuss the features of this Scheme with a financial advice provider before deciding whether to invest.

Balanced Fund features and benefits

We use a passive investment approach in managing the Balanced Fund. This means that in managing the Balanced Fund we seek to replicate the performance of chosen market indices. The benefit of passive investment management is that it is cheaper to implement than active investment management as securities are chosen based on their market capitalisation weight in an index, instead of being chosen based on investment research.

Passive management

Our passive approach allocates clients' funds using a combination of local and international market indices. We may choose to modify those indices or choose different indices to for example, ensure the Balanced Fund meets our responsible investment policy.

We target a 50% allocation to bonds and a 50% allocation to shares. The actual investment mix may deviate from the target allocation from time to time, due to factors such as funds flows or movements in securities prices.

We may allocate clients' funds in line with our chosen indices by investing directly, via a wholesale trust, via an index tracking futures contract, or via an index tracking fund.

The performance of the Balanced Fund may not replicate the chosen indices due to the practicalities of investment management, including the timing of purchases and sales, funds flows, liquidity and/or in order to meet NZ Funds' responsible investment policy.

Use of derivatives

We may use derivatives in managing the Balanced Fund to gain exposure to the chosen indices.

Derivatives are not used to gain leverage in the Balanced Fund.

We also use derivatives to manage the Balanced Fund's foreign currency exposure. Where the Balanced Fund holds assets denominated in a foreign currency, we hedge the foreign currency exposure of international fixed interest and Australian shares back to the New Zealand dollar. International shares and/or international share market futures are held in international currencies.

Strategies features and benefits

The Scheme includes three Strategies: the Income Strategy, Inflation Strategy and Growth Strategy (collectively the Strategies). You can use them to customise your investment using Self Select, or used in combination the Strategies make up the Life Cycle investment option.

Self Select

Different Members have different needs. Self Select lets you customise your investment in the Strategies to meet your financial goals, by giving you the ability to choose which Strategy (or any combination of them) best suits your needs. Your financial advice provider can help you make this choice.

Life Cycle

Life Cycle is the default investment option. Life Cycle automatically allocates your investment across the Strategies each year based on your age. Regularly reallocating your investment can significantly impact the long term success of your investment in KiwiSaver.

Active management

We use an active investment management approach when managing the Strategies. This approach seeks to maintain a balance between preserving your capital and growing your wealth in a manner that is consistent with each Strategy's objective. This is different from a passive investment approach (described above).

Our active management approach means that we make ongoing investment decisions, search for emerging opportunities, buy or sell securities as appropriate, and use sophisticated investment instruments and techniques (used by other managers who manage money in similar ways to us) in seeking to achieve the investment objective of each Strategy.

In managing the Strategies, we take a wide variety of actions including: altering the proportion invested in each security (e.g. shares, bonds, or other investment instruments) or asset class (different investment categories); altering the manner in which a Strategy is exposed to each security or authorised asset class; investing directly or indirectly; using derivatives and leverage; using collective investment vehicles; using specialist investment

managers (including hedge funds); using commodities and alternative securities (including digital assets, such as cryptocurrencies); taking foreign currency positions; applying hedging; and/or taking short positions (which can create gains when investments decline). Some of these authorised asset classes or investment categories may be difficult for individual investors to access.

Specialist managers

As part of our active management approach, we use a range of specialist external investment managers (external managers), specialising in different asset classes and investment approaches.

External managers may be selected where we consider their investment approach will help meet the Strategies' objectives.

Some of the external managers we use may not offer their services to individual investors or may have high threshold amounts for investment.

Use of derivatives

We use derivatives in managing the Strategies.

A derivative is a specialised financial instrument that gets (derives) its value from another asset (the underlying asset). Derivatives are based on a wide variety of assets, including individual shares, share market indices, interest rates, commodities (like gold) and currencies and cryptocurrencies. Examples of derivatives include futures, options, forwards and swaps.

Derivatives are useful because they are financially equivalent to buying, selling, or trading the underlying asset itself.

Derivative markets are generally very liquid because of the volume of transactions traded daily. Therefore, the use of derivatives can help us achieve better outcomes by enabling us to implement changes rapidly. The transaction costs associated with trading derivatives are also minimal when compared to the costs of buying, selling, or trading the underlying assets.

Derivatives can be considered to be 'leveraged' investments, which means that a relatively small investment in derivatives can produce the same gain or loss as a much larger investment in the underlying asset itself. The use of derivatives and the leverage their use creates may increase or decrease investment risk. NZ Funds uses derivatives in a selective manner and makes decisions on the amount of leverage that the individual Strategies may use.

The use of derivatives is somewhat like an individual investor borrowing money to buy an investment. For example, an investor might borrow money to purchase a property or share investment. As a result, gains or losses may be increased compared to an investment that has no borrowing.

The use of derivatives is managed through NZ Funds' active management approach and through the processes and policies surrounding our investment guidelines. The guidelines are not limits on the amount of leverage that the use of derivatives may create in each authorised asset class and the guidelines do not impose a limit on how we may invest. However, derivatives are only used in seeking to achieve each Strategy's investment objective and are an essential aspect of our active investment approach.

NZ Funds is expected to regularly use leverage (via derivatives) to change the exposure to an authorised asset class. The actual amount of leverage used by the Strategies

for the preceding three years is set out in the Other Material Information document.

The use of derivatives can also substantially alter the returns and risks of a Strategy and may result in higher or lower returns than a fund that does not use derivatives.

Our ability to use derivatives in managing the Strategies may be potentially extensive. Our use of derivatives may also lead to the Strategies being leveraged.

Common features and benefits

Wholesale trusts

The Balanced Fund and the Strategies may invest directly, or indirectly via wholesale trusts. A wholesale trust is a wholesale fund managed by us which holds investments. Those investments may include directly held securities and/or investments in funds managed by us or external investment managers. The wholesale trust investment structure provides operational and administrative efficiencies.

In addition to the Balanced Fund and the Strategies, the wholesale trusts may also be invested in by other wholesale investors, including directors and employees of NZ Funds and its related entities.

Securities lending

The Scheme may undertake securities lending and other revenue generating activities.

The net proceeds generated from these activities will be shared equally between NZ Funds and the Balanced Fund or the relevant Strategy. We use our share of the net proceeds to offset the costs of managing the Scheme. Where these activities involve risks, such as the risk of default, the risks are borne by the Balanced Fund or the Strategies.

Securities lending involves the transfer (lending) of securities (e.g. bonds or shares) to a third party (the borrower) for a fixed period of time, in return for a payment (revenue). To protect against loss the borrower may provide the lender with collateral in the form of cash or securities. There is no guarantee that the Scheme will not incur a loss.

Borrowing

Neither the Balanced Fund nor the Strategies borrow to invest.

Joining the Scheme

You can join the Scheme (become a Member) if you are a New Zealand citizen or entitled to be in New Zealand indefinitely, and living or normally living in New Zealand (with some exceptions).

You can join the Scheme by completing the application form at the back of this PDS or by applying online at www.nzfunds.co.nz.

You can invest in the Scheme in three ways: by investing in the Balanced Fund only, using the Self Select investment option to invest in the Strategies or using the Life Cycle investment option.

Balanced Fund

The Balanced Fund is principally designed for people who are new to KiwiSaver and wish to build their confidence before investing in a more actively managed investment in order to seek to maximise their long-term wealth. The Balanced Fund is however open to all investors.

If you invest in the Balanced Fund your money will be invested in a balanced mix of income and growth assets using a passive investment approach. If you wish to increase your exposure to growth assets or use a more active investment approach you will need to switch your entire investment to either Self Select or Life Cycle.

Strategies

You can invest in the Strategies using either Self Select or Life Cycle.

Self Select

If you wish to actively manage your own asset allocation you can invest using Self Select. Under Self Select, you choose which of the Income, Inflation and Growth Strategies your contributions will be invested in and how much is invested in each Strategy. If you choose Self Select we recommend that you talk to a financial advice provider to help you work out how much to invest in each Strategy.

Life Cycle

The Life Cycle approach is designed to manage the risk of your investment by automatically allocating your investment across the Income, Inflation and Growth Strategies based on your age, so it aligns with your stage in life and future needs.

Because this approach is useful to many Members, we have made it our default investment option.

Older Members have a shorter time left before they begin to withdraw funds. This shorter investment time horizon means that older Members have less time to recoup any losses if a downturn occurs.

For Members under 55 years old, the Life Cycle approach places 85% of your investments into the Growth Strategy which has a higher level of volatility. Beginning at age 55, the Life Cycle approach steadily reduces your exposure to the Growth Strategy and increases the proportion of your investments allocated to the Income and Inflation Strategies. Moving into lower-volatility Strategies may reduce potential returns, but offers less risk. The chart below shows the current Strategy allocations under Life Cycle. These allocations may change from time to time.

Life Cycle is designed for Members who want to remain invested through their retirement years and draw down on their savings regularly. It may not be appropriate for Members who plan to make a first home purchase withdrawal in the short to medium term, or who plan to withdraw all, or a significant portion of their investment when they reach age 65 or early on in their retirement.

You can switch between the Balanced Fund, Self Select and Life Cycle at any time, subject to NZ Funds' ability to suspend switches. If you wish to switch to or from the Balanced Fund, you must switch your entire investment. More information on how to switch can be found on page 9.

Making investments

Member contributions

If you are an employee, you can choose to contribute either 3%, 4%, 6%, 8%, or 10% of your before tax pay. If you do not choose a contribution rate, your rate will be set at 3%. Your employer will deduct your contributions from your after tax pay.

Balanced Fund

If you choose the Balanced Fund your money will be invested in a balanced mix of income and growth assets using a passive investment approach.

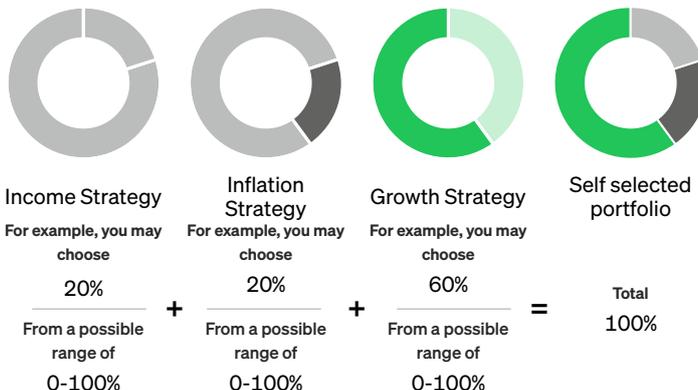

Balanced Fund

Your indicative allocation

50% Income Assets / 50% Growth Assets

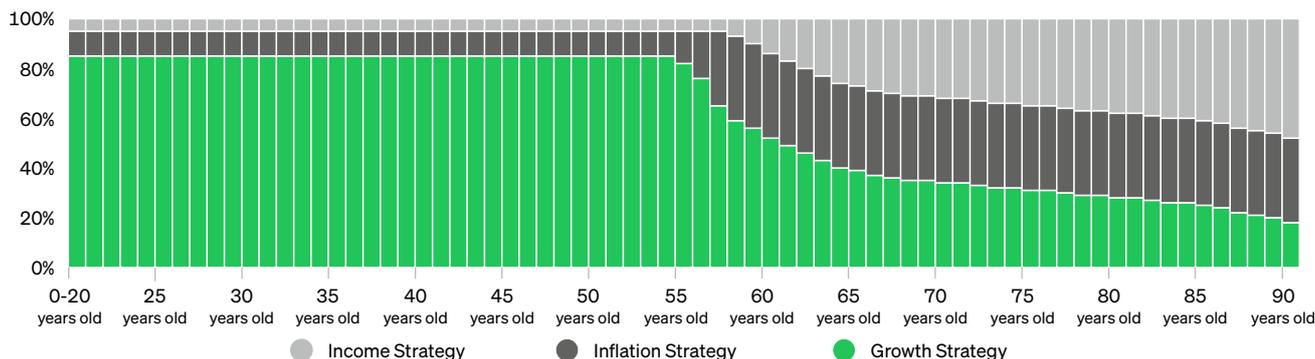

Self Select

If you choose the Self Select option, you decide how much to invest in each of the Income, Inflation and Growth Strategies.

Life Cycle (default option)

If you choose the Life Cycle option, your investment in the Growth Strategy will be reduced each year after you turn 55 and your investment in the Inflation and Income Strategies will increase.

You can change your contribution rate at any time. You do not have to contribute if you are on a savings suspension or you have reached age 65.

Whether you are working or not (including if you are self-employed), you can make lump sum or regular contributions to the Scheme. To make regular contributions, complete the direct debit form at the back of this PDS.

Employer contributions

Your employer is generally required to contribute at least 3% of your before tax pay, as long as you are contributing through your pay, and are 18 or over and under the age of eligibility for New Zealand superannuation (currently 65). Your employer is required to deduct employer's superannuation contribution tax from their contribution.

Government contributions

You may also be eligible to receive a Government contribution of 50 cents for every \$1.00 you contribute up to a maximum of \$521.43 each year.

Government contributions are calculated annually based on your total contributions during the last year (1 July to 30 June) and the number of days during that year that you were eligible to receive Government contributions. You will generally be eligible if you are 18 or over and have not yet reached the age of eligibility for New Zealand Superannuation (currently 65), and you live (or normally live) in New Zealand.

Withdrawing your investments

KiwiSaver is designed to help you save for retirement. Under the KiwiSaver Act 2006, unless you satisfy one of the early withdrawal criteria, you cannot withdraw your savings until you reach age 65.¹

Early withdrawals

You may apply to withdraw some or all of your investment before age 65 in the following circumstances:

a) First home purchase

You may be eligible to withdraw your investment to put towards buying your first home (or land to build your first home on) once you have been in KiwiSaver for at least three years. You must leave \$1,000 and any amount transferred from an Australian complying superannuation fund in your KiwiSaver account after the withdrawal.

b) Significant financial hardship

If you are suffering significant financial hardship, you may apply to the Supervisor to withdraw some of your investment. You cannot withdraw any Government contributions and the Supervisor may limit the amount withdrawn to an amount it considers is sufficient to ease the hardship. You may be asked to provide evidence to support your application.

c) Life-shortening congenital condition

If you are suffering from a life-shortening congenital condition which is expected to reduce life expectancy below the age of 65, you may apply to the Supervisor to withdraw all or some of your investment or start a regular withdrawal program at a date of your choosing.

You may continue to make contributions, however after you make a withdrawal you will no longer be eligible to receive Government contributions or compulsory employer contributions. You will need to provide medical evidence to support your application.

d) Serious illness

If you are suffering from a serious illness, you may apply to withdraw your investment. You will need to provide medical evidence to support your application.

e) Permanent emigration (other than to Australia)

If you permanently emigrate to a country other than Australia, you may apply to withdraw your investment one year after you leave New Zealand. You cannot withdraw the Government contributions or any amount transferred from an Australian complying superannuation fund.

f) Permanent emigration to Australia

If you emigrate to Australia permanently, you may apply to transfer your investment to an Australian complying superannuation fund.

g) Death

If you die while a Member of the Scheme, your personal representatives can apply to withdraw your investment in the Scheme which will be paid to your estate.

Other withdrawals

If you have transferred savings from an Australian complying superannuation fund, you can withdraw that amount when you reach age 60 and are considered to be 'retired' under Australian law.

If you have transferred from a foreign superannuation scheme (excluding an Australian scheme), you may be able to withdraw some of your investment to pay any New Zealand tax or student loan repayment obligation that arises because of the transfer. There may also be circumstances in which a law or court order requires us to release some or all of your investment.

Transfer to another KiwiSaver scheme

You may apply to transfer your investment to another KiwiSaver scheme. You can only be a Member of one KiwiSaver scheme at a time.

Suspension of withdrawals, transfers or switches

In certain circumstances, we may suspend withdrawals, transfers or switches where we consider it is not practicable or would prejudice the interests of Members. Conditions apply to the withdrawals described. For more information, see the Other Material Information document on the offer register at disclose-register.companiesoffice.govt.nz.

How to switch between funds

You can switch between investment options by using the NZ Funds app. In Self Select you can also use the NZ Funds app to change the allocation of your investment.

The NZ Funds app is available from the Apple App Store and from the Google Play site. If you are unable to access the NZ Funds app, a paper switch form is available from NZ Funds or your financial advice provider.

1. If you joined KiwiSaver (or a complying superannuation fund) before 1 July 2019, a 5 year minimum membership requirement applies if you were aged 60 or over when you joined. During the 5 year minimum membership period you are entitled to the Government contribution, and compulsory employer contributions if you are contributing from your salary or wages. You can opt out of the 5 year membership requirement, and if you are aged 65 or over, make a partial or a full withdrawal. However, if you do so you will no longer be eligible to receive any Government contributions or compulsory employer contributions.

3. Description of your investment options

Balanced Fund

We use a passive investment approach when managing the Balanced Fund. Using this approach we select securities with reference to one or more asset class indices. Where the Balanced Fund holds assets denominated in a foreign currency, we hedge the foreign currency exposure of international fixed interest and Australian shares back to the New Zealand dollar. International shares and/or international share market futures are held in international currencies.

Strategies

We use an active investment management approach when managing the Strategies. This approach seeks to maintain a balance between preserving your capital and growing your wealth in a manner that is consistent with each Strategy's objective.

Our active investment management approach allows the Strategies to be invested in authorised asset classes in any proportion. It also includes the ability for the Strategies to use derivatives to create leverage. We also actively manage the foreign currency exposure of the Strategies.

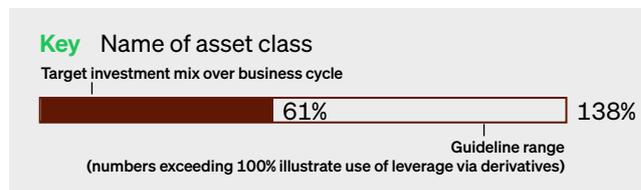

Investment approach

We use a combination of authorised asset class limits, guideline ranges and target investment mixes in the oversight of the Balanced Fund and the Strategies. These are designed to ensure the Balanced Fund and the Strategies invest in accordance with their investment objective and timeframe.

The authorised asset class limits are the maximum exposure that the Balanced Fund or a Strategy may have to an authorised asset class.

The guideline ranges are the ranges within which the Balanced Fund and each Strategy will normally (but not always) invest in the authorised asset classes over the course of an economic cycle. More information on the guideline ranges is contained in the Other Material Information document, which also contains information on how we manage foreign currency, and the historical investment mix and historical leverage range for the Balanced Fund and the Strategies.

The guideline ranges and target investment mix are shown in the tables on pages 10 and 11. The target investment mix (being the dark coloured portion of the guideline range for each asset class) is the expected target investment mix for the Balanced Fund and each Strategy over the business cycle. It is expected to vary moderately for the Balanced Fund and significantly for the Strategies, within the indicated band, over the course of an economic cycle.

Further information on NZ Funds' investment approach can be found in the Statement of Investment Policy & Objectives (SIPO), which includes more details on the interaction between the authorised asset class limits, the guideline ranges and target investment mixes that apply to the Balanced Fund and the Strategies.

The SIPO is available on the scheme register at disclose-register.companiesoffice.govt.nz. We may make changes to the SIPO at any time after consulting with the Supervisor. A description of any material changes will be included in the Scheme's annual report. Where required by the Trust Deed or law, you will receive notice of material changes before they occur. Further information about the assets in the Balanced Fund and each Strategy can be found in the Other Material Information document and Quarterly Fund Updates at www.nzfunds.co.nz.

Responsible investing

Responsible investment, including environmental, social, and governance considerations, is taken into account in the investment policies and procedures of the Scheme as at the date of this PDS. You can obtain an explanation of the extent to which responsible investment is taken into account in those policies and procedures at nzfunds.co.nz/responsible-investment-policy.pdf.

The guideline ranges shown in the table below include estimates of the amount of leverage that may be used in each authorised asset class. Investors should be aware that NZ Funds' use of derivatives and/or other instruments may result in the proportion invested in an authorised asset class exceeding the guidelines shown in the table below from time to time but will not result in the authorised asset class limits being exceeded.

Where the upper percentage of a guideline range exceeds 100% this indicates that NZ Funds is expected to regularly use derivatives and/or other instruments to create leverage to increase the exposure to an authorised asset class beyond 100%. Showing a target investment mix of 100% or less for an authorised asset class does not mean derivatives or other instruments will not be used. The Balanced Fund does not use derivatives or other instruments to obtain leverage.

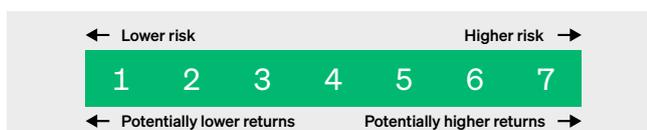

Name	Objective	Strategy summary, guideline ranges and target investment mix ¹	Risk indicator	Minimum suggested timeframe

4. What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator. The risk indicators for the investment options offered under this PDS can be found on pages 4, 10 and above.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.nzfunds.co.nz/AdviceSolutions/RiskProfile/.

Note that even the lowest category does not mean a risk-free investment, and there are other risks (described under the heading 'Other specific risks') that are not captured by this rating.

The risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 30 September 2021. While risk indicators are

1. For more information on what is included in each asset class see the SIPO. Monthly updates of actual investments held by the Balanced Fund and each Strategy are available on the Performance page of our website at www.nzfunds.co.nz. 2. The Balanced Fund has not been in existence for a full five years to 30 September 2021. Accordingly, the risk indicator uses returns based on a market index as well as actual returns. Market index returns have been used for the period prior to 30 August 2021. As a result, the risk indicator may be a less reliable indicator of the potential future volatility of the Balanced Fund. 3. See page 4 for Strategy allocations. 4. Alternative securities are investments not usually accessed by retail investors, for example hedge funds and digital assets.

usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest Quarterly Fund Update for each investment option.

The risk indicators are calculated using historical or market index returns only. If the period of returns used in calculating the risk indicators reflected a time of unusually low or high volatility, the risk indicator may not reflect the future volatility of the Balanced Fund or a Strategy.

NZ Funds is not a traditional fund manager. Our active investment approach tries to anticipate future events and this leads to changes in our asset allocations. Changing our asset allocation may lead to material changes to expected future risk or expected returns.

General investment risks

Some of the things that may cause the Balanced Fund's or a Strategy's value to move up and down, which affect the risk indicator, are:

Market risk

Market risk is the risk of volatility or loss caused by a change in the value of investments held. Market risk arises from uncertainty about the future value of investments. Changes in value may be caused by factors specific to an investment, or as a result of factors affecting financial markets generally.

Illiquid securities

The Strategies may hold illiquid securities. Illiquid securities are assets that cannot be quickly converted or exchanged for cash (or not without a significant loss in value). Illiquid securities generally carry a greater risk than liquid securities, particularly during times of market volatility. Investment illiquidity may make it difficult to value, acquire or dispose of assets.

Asset concentration

The Strategies can hold authorised asset classes and securities in any proportion or concentration, meaning that the Strategies may not always be diversified. For example, from time to time, a Strategy may be predominantly invested in a specific security, external manager, asset class, country or sector and may be particularly exposed to any adverse circumstances affecting them.

Currency

The unit prices of the Balanced Fund and each Strategy are denominated in New Zealand dollars, but the Balanced Fund or the Strategies may be exposed directly or indirectly to foreign currencies. There is a risk that returns may be adversely affected by foreign currency volatility.

Other specific risks

Other circumstances that can significantly increase the risk to returns for investors and that may not be reflected in the risk indicator include:

Life Cycle

There is a risk that the predefined age-based asset allocation used in Life Cycle may not be suitable for you as it does not take into account your personal circumstances, such as your attitude to risk or your financial circumstances.

Emerging investment instruments and techniques

In managing the Strategies, NZ Funds and its external managers are able to use certain sophisticated and emerging investment instruments and techniques (including hedge funds and derivatives) which are used by other managers who manage money in similar ways to us. This may result in the returns on your investment fluctuating more than in some other funds. The risk of sophisticated and emerging investments may be higher than the risk rating for the Strategies shown by its current risk indicator.

Higher risk investments

The Strategies are different from some other funds in that they can invest in a wide range of investments, including investments which may be, or which may have traditionally been, considered to be speculative (e.g. hedge funds, derivatives and cryptocurrencies). This may result in the returns on your investment fluctuating more than in other funds. The risk of those investments may be higher than the risk rating for the Balanced Fund or the Strategies shown by their current risk indicator.

Active management

NZ Funds uses an active management approach in managing the Strategies. Active management is subject to different risks (which may be considered higher risks) than non-active (or passive) management. As a result, our active management approach may cause the returns and capital stability of the Strategies to significantly differ from the returns and capital stability of other managers and the underlying asset classes used.

Passive management

NZ Funds uses a passive management approach in managing the Balanced Fund. Our passive approach allocates the funds invested in the Balanced Fund using a combination of local and international indices. The Balanced Fund's returns are therefore materially determined by the rise or fall of the chosen indices. The Balanced Fund cannot outperform or reduce the volatility of these indices.

What we invest in can change rapidly and significantly

In implementing our active investment management approach we invest in a wide range of assets and emerging investments and change assets quickly. We can do this without notice to Members. The potential for rapid changes in the nature and extent of assets invested in and the potential for emerging investments may significantly increase losses in the Strategies. As part of our investment management process, we maintain internal investment guidelines which assist in the oversight of the Strategies. For more information on our internal investment guidelines see the Other Material Information document.

Potentially extensive use of leverage via derivatives

In managing the Strategies, NZ Funds uses derivatives to create leverage to seek to both increase returns (by taking active positions) and reduce risk (by taking hedge positions). There is no limit on our use of derivatives or the amount of leverage their use may create. The use of derivatives and the leverage their use may create can increase or decrease the risk of a Strategy materially and is an essential aspect of our active investment approach.

Specialist managers

We may use external managers in the management of the Strategies. There are a number of risks associated with investing with these managers. These include wide mandates, redemption restrictions, and the risk that a manager selected underperforms or generates a loss. We have a due diligence process for appointing external managers and all managers are monitored and reviewed.

Securities lending

Securities lending risk is the risk that the borrower of securities is unable to meet, or refuses to honour, its obligations to return the borrowed securities, and that where collateral has been provided, the collateral is insufficient to cover the cost of repurchasing those securities, or those securities are unavailable for purchase.

Key person

The Scheme may be dependent on the services of one or more key persons, either inside or outside NZ Funds, and may be adversely affected by the departure or poor performance of one or more of those individuals.

For more information on the risks of investing in the Scheme, see the Other Material Information document.

5. What are the fees?

There are no management fees for investing in the Balanced Fund. You will be charged fees for investing in the Strategies.

Fees are deducted from your investment and will reduce your returns. If NZ Funds invests in other funds, those funds may also charge fees. The fees you pay will be charged in two ways:

- Regular charges (for example, annual fund charges). Small differences in these fees can have a big impact on your investment over the long term.
- One-off fees. NZ Funds does not charge any establishment, contribution, termination, withdrawal, switch or transfer fees.

Name	Estimated annual fund charges ^{1,2}	Estimated annual fund charges after fee rebate ^{1,2,3} Total invested > \$1m
Balanced Fund	0.00%	0.00%
Income Strategy	1.12%	1.12%
Inflation Strategy	1.42%	1.25%
Growth Strategy	1.65%	1.25%
Life Cycle: Age 0-54	1.60%	1.24%
Life Cycle: At age 65	1.43%	1.21%
Life Cycle: At age 75	1.39%	1.20%

Annual fund charges

Annual fund charges are made up of a management fee, estimated service fee, external management fee and performance fee. These fees are deducted directly or indirectly from each Strategy and are reflected in the unit price of that Strategy.

In addition to annual fund charges, transaction costs of buying and selling assets (e.g. brokerage) are paid directly or indirectly by the Balanced Fund or Strategies and reflected in the unit price.

1. As a percentage of the net asset value of each Strategy. 2. The estimated annual fund charges include estimated performance fees of 0.03% of the net asset value of the Inflation Strategy, and 0.02% of the net asset value of the Growth Strategy. No performance fee applies to the Balanced Fund or the Income Strategy. Actual performance fees received by NZ Funds are set out in the Other Material Information document. 3. A fee rebate will apply where the total amount you have invested in the Scheme and other managed funds offered by NZ Funds is \$1 million or more.

The estimated annual fund charges above represent the total estimated amount of all of the fees set out in this section. For more details on the basis of estimation, see the Other Material Information document.

Management fee

Balanced Fund

NZ Funds does not currently charge a management fee to the Balanced Fund.

Strategies

The Strategies are charged an annual management fee by NZ Funds. The management fee is fixed as a percentage of the gross asset value of each Strategy. It is calculated daily and paid monthly.

Estimated service fee

Balanced Fund

The Balanced Fund is not currently charged a service fee.

Strategies

This covers estimated charges for services provided to the Strategies and related wholesale trusts that the Strategies invest in, such as fund administration, custody, audit and legal fees, and the Supervisor's fees.

External management fee

Balanced Fund

The Balanced Fund is not currently charged any external management fees.

Strategies

NZ Funds may employ third party investment experts to help manage each Strategy's investments. Where it does, this fee covers the estimated management and performance fees charged by these investment experts.

Performance fee

NZ Funds may charge a performance fee in the Private Dividend Yield Trust, a wholesale trust that the Inflation and Growth Strategies may invest in. No performance fee applies to the Balanced Fund or the Income Strategy.

The performance fee is based on a hurdle rate of return. The hurdle rate is the minimum return the Private Dividend Yield Trust must achieve before a performance fee is charged. A performance fee is only charged (accrued) if the returns of the Private Dividend Yield Trust (before tax, but including imputation credits) exceed the performance of the specific market index (hurdle rate) set out in the table on page 14.

When we calculate the performance fee, we include a notional management fee which has the effect of increasing the level of return the Private Dividend Yield Trust must achieve before a performance fee is charged.

The performance fee is calculated and accrued daily, and subject to the high-water mark being exceeded, is payable on or after 31 March each year. There is no maximum limit on the performance fee.

Wholesale Trust	What is performance assessed against?	Specific market indices used as performance benchmark (hurdle rate) ¹	Performance fee amount
Private Dividend Yield Trust	New Zealand and Australian shares	70% S&P/NZX 50 Portfolio Index Gross with Imputation; 30% S&P/ASX 200 Index Total Return.	15% of the Private Dividend Yield Trust's return above the hurdle rate.

High-water mark

A performance fee is accrued if the Private Dividend Yield Trust's return exceeds the hurdle rate but is only paid for the performance year if the Private Dividend Yield Trust's unit price exceeds the high-water mark (being the unit price the last time a performance fee was paid).

If the high-water mark is not exceeded at 31 March, any accrued performance fee is carried forward and will be paid when the high-water mark is exceeded. The high-water mark ensures that any accrued performance fee is not paid to NZ Funds until the unit price is above the last high-water mark.

Changing the performance fee

NZ Funds may change the rate and basis of calculation of the performance fee by giving one month's notice to Members. For more information on the performance fee, including an example of how it is calculated, see the Other Material Information document.

Other charges

If you are invested in the Strategies, there is an administration fee of \$29.76 a year payable if you are 18 or over. This fee covers the costs of administering your account and is deducted from your account monthly. If you are invested in the Balanced Fund this fee is paid by NZ Funds.

Example of how fees apply to an investor

Sarah invests \$10,000 in the Growth Strategy. She is not charged an establishment fee or a contribution fee. This means the starting value of her investment is \$10,000.

She is charged management and administration fees (comprising management fee, estimated service fee and external management fee) which work out to about \$163 (1.63% of \$10,000). These fees might be more or less if her account balance has increased or decreased over the year.

Sarah may also be indirectly charged a performance fee if the Private Dividend Yield Trust (a wholesale trust in which the Growth Strategy is invested), earned more than its target. Over the next year, Sarah pays other charges of \$29.76.

Estimated total fees for the first year: Fund charges \$165 (this includes an estimated performance fee of \$2). Other charges \$29.76.

See the latest Quarterly Fund Update for an example of the actual returns and fees Members were charged over the past year. This example applies only to the Growth Strategy.

If you are considering investing in other investment options in the Scheme, this example may not be representative of the actual fees you may be charged.

Fee rebate

A fee rebate will apply if the total amount you have invested in the Scheme and other managed funds offered by NZ Funds is \$1 million or more.

The fee rebate is calculated daily based on the balance of your investment and paid monthly. The fee rebate is illustrated in the table on page 13.

In addition to the fee rebate, we may in our discretion and from our own funds, pay or rebate some or all of the fees and expenses described in this section.

Members under age 18

NZ Funds currently rebates annually all fund fees, charges and expenses incurred by members under the age of 18. These fees, charges and expenses are accrued daily and rebated at the end of March each year. If you transfer to another KiwiSaver scheme before the rebate calculation is undertaken, you will not receive the rebate for that year.

For more information on fees and the fee rebate, see the Other Material Information document.

Balanced Fund

NZ Funds does not charge a management fee to the Balanced Fund.

NZ Funds currently pays or rebates to the Balanced Fund its share of all fees and expenses listed in this section (excluding transaction costs). Other costs and expenses in relation to the Balanced Fund may, at NZ Funds' discretion, also be paid directly by NZ Funds or rebated in part or in full to the Balanced Fund.

However, there may be future circumstances in which, for cost recovery purposes, NZ Funds may charge one or more expenses or other costs listed in this section (either in part or in full) to the Balanced Fund. We will tell you if this occurs.

At a future date NZ Funds may decide to introduce a management fee to the Balanced Fund. If this occurs, Members will be provided with 90 days' notice of the introduction of the management fee and will have the opportunity to switch out of the Balanced Fund before the management fee is introduced.

Members in the Balanced Fund or any of the Strategies are able to transfer between the Balanced Fund and any of the Strategies, or to another KiwiSaver scheme, at any time they wish, without incurring a transfer fee.

Onboarding and service payments

NZ Funds may pay an external financial advice provider an onboarding and ongoing service payment in recognition of the effort and costs associated with providing services to you. These payments are made out of the revenue earned by NZ Funds for managing the Scheme and are not deducted from the Balanced Fund or the Strategies directly.

Additional information

Securities lending revenue

The net proceeds from securities lending and other specific revenue generating activities will be shared equally between NZ Funds and the Balanced Fund or the relevant Strategy to help to offset the costs of managing the Scheme.

GST

Fees do not include GST or other similar tax. This means that if any GST, or other similar tax, is payable on any fee, that tax will be an additional cost.

1. As the hurdle rate of return is based on the performance of the Private Dividend Yield Trust, you may pay a performance fee even if the Strategy's overall performance is below the market index as reported in the Quarterly Fund Updates.

The fees can be changed

Under the KiwiSaver Act, all fees charged to you must be reasonable. NZ Funds, the Supervisor, and the Administration Manager may alter the fees described in this section or introduce new fees, subject to the KiwiSaver Act and the Trust Deed.

NZ Funds must publish a Quarterly Fund Update for each investment option showing the fees actually charged during the most recent year. Quarterly Fund Updates, including past updates, are available at www.nzfunds.co.nz.

6. What taxes will you pay?

The Scheme is a Portfolio Investment Entity (PIE). The amount of tax you pay is based on your prescribed investor rate (PIR). To determine your PIR, go to www.ird.govt.nz/roles/portfolio-investment-entities/using-prescribed-investor-rates. If you are unsure of your PIR, we recommend you seek professional advice or contact Inland Revenue.

It is your responsibility to tell NZ Funds your PIR when you invest or if your PIR changes. If you do not tell NZ Funds, a default rate may be applied.

If the rate applied to your PIE income is lower than the correct PIR you will be required to pay any tax shortfall as part of the income tax year-end process. If the rate applied to your PIE income is higher than your PIR any tax over-withheld will be used to reduce any income tax liability you may have for the tax year and any remaining amount may be refunded to you.

For more information on tax see the Other Material Information document.

7. Who is involved?

About NZ Funds

NZ Funds is the manager of the Scheme. NZ Funds makes decisions about what assets the Balanced Fund and the Strategies invest in and may appoint external managers. NZ Funds is also responsible for the design of Life Cycle. Our contact details are:

Attention: Client Services
New Zealand Funds Management Limited

Level 16, 21 Queen Street
Private Bag 92163
Auckland 1142

T. 09 377 2277 or 0800 377 2277
E. info@nzfunds.co.nz
W. www.nzfunds.co.nz

Who else is involved?

Title	Name	Role
Supervisor and Custodian	The New Zealand Guardian Trust Company Limited	Supervisor and Custodian of the Scheme under the Financial Markets Conduct Act 2013, responsible for supervising NZ Funds as manager of the Scheme, and holding Scheme property on trust for the Scheme.
Administration Manager	Link Market Services Limited	Appointed as the administration manager of the Scheme, responsible for the day-to-day administration of the Scheme and the Balanced Fund and each Strategy, including maintaining the register of Members.

8. How to complain

NZ Funds

If you have any concerns about your investment please contact NZ Funds. Our contact details are:

Attention: Client Services
New Zealand Funds Management Limited
Level 16, 21 Queen Street
Private Bag 92163
Auckland 1142

T. 09 377 2277 or 0800 377 2277
E. info@nzfunds.co.nz
W. www.nzfunds.co.nz

Guardian Trust

Complaints can also be made to the Supervisor. The Supervisor's contact details are:

Attention: NZ Funds Relationship Manager
The New Zealand Guardian Trust Company Limited
Level 14, 191 Queen Street
PO Box 274
Auckland 1140
T. 09 909 5100
E. ct-auckland@nzgt.co.nz
W. www.guardiantrust.co.nz

Dispute resolution

NZ Funds and the Supervisor are both Members of an approved dispute resolution scheme run by Financial Services Complaints Limited (FSCL). If your complaint has not been resolved to your satisfaction, you can contact FSCL. FSCL will not charge you a fee to investigate or resolve a complaint.

Attention: New Zealand Funds Management Limited
Financial Services Complaints Limited

PO Box 5967
Wellington 6140
T. 04 472 3725 or 0800 347 257

W. www.fscl.org.nz

9. Where you can find more information

More information about the Scheme, the Balanced Fund and the Strategies, such as financial statements, annual reports, Quarterly Fund Updates, the Other Material Information document, the Trust Deed and the SIPO is available on the offer register and the scheme register at disclose-register.companiesoffice.govt.nz.

A copy of information on the offer register and the scheme register is available on request from the Registrar of Financial Service Providers.

Quarterly Fund Updates and other information relating to the Balanced Fund and the Strategies (including the Other Material Information document and the SIPO) are also available on our website.

You may request a copy of this information from NZ Funds free of charge. Our contact details are set out in section 7 of this PDS 'Who is involved?'

10. How to apply

You can apply to join the Scheme by completing an application form at the back of this PDS or by applying online at www.nzfunds.co.nz.

This page has intentionally been left blank.

2 | Investment options (Please select one only*)

- Balanced Fund** – If you choose the Balanced Fund your money will be invested in a single fund holding a balanced mix of income and growth assets and using a passive investment approach.
- Self Select** – If you choose the Self Select option, you decide how much to invest in each of the Income, Inflation and Growth Strategies.

	% allocation
Income Strategy	<input type="text"/>
Inflation Strategy	<input type="text"/>
Growth Strategy	<input type="text"/>
Total	100%

- Life Cycle** – Under the Life Cycle option, your investment is automatically allocated across the Income, Inflation and Growth Strategies each year based on your age.

* If you do not select an option your investment will be allocated according to Life Cycle.

3 | Employment status (Please select one only)

- Employed** **Self employed** **Not employed**
- Minor (under 16 years old)** **Minor (16 to 18 years old)**

Occupation

Employer name (if applicable)

4 | Payment options (Please select one or more)

- I wish to contribute from my salary and wages: 3% 4% 6% 8% 10%

If you are employed and new to KiwiSaver, please ensure you complete the KiwiSaver deduction form (KS2) and provide this to your employer. A copy of this form is available either from your employer or from the Inland Revenue website.

- I wish to make a lump sum contribution of by direct credit.

Please use internet banking and select **NZ Funds KiwiSaver Scheme** from the list of payees under bill payments and complete your details and payment amount as instructed.

- I wish to make regular contributions per the completed Direct Debit Form attached.

5 | Applicant declaration

By signing this Application Form, I confirm that:

- All details provided in this Application Form are correct.
- I have received, read and understood the Product Disclosure Statement (PDS) dated 3 December 2021 to which this Application Form was attached. I understand that additional information about the NZ Funds KiwiSaver Scheme is available on the online register entry at disclose-register.companiesoffice.govt.nz.
- I agree to be bound by the terms and conditions contained in the PDS (including this Application Form), the Trust Deed (as amended from time to time) and the online register entry.
- I understand that personal information provided in this Application Form and any personal information provided by me in the future will be used by NZ Funds, the Administration Manager and the Supervisor, and any related companies of these parties, together with my financial adviser, for administering the investment, including satisfying the requirements of the AML/CFT Act (this may include using my personal information for the purpose of electronic identity verification using various third party databases including the Department of Internal Affairs database). I understand my personal information may also be shared with relevant authorities including Inland Revenue. NZ Funds may also use my personal information to provide me with information about other products and services. I acknowledge that I have the right to access and correct this information.
- I authorise NZ Funds to disclose personal information to the Financial Markets Authority as may be required from time to time under the Financial Markets Conduct Act 2013 or any other law.
- I understand that the distributor through which I joined the Scheme (if applicable) may be remunerated by NZ Funds for distributing the Scheme.
- I consent to NZ Funds and the Administration Manager communicating with me, and providing me with information, by electronic means (i.e. by email, as provided by me, and/or by providing me with a URL link, or with information through an electronic facility). These communications may include, but not be limited to, general correspondence, investment updates, and legally required communications or documents (including annual reports, annual member statements (confirmation information), and annual tax statements).
- I meet the eligibility criteria for joining the NZ Funds KiwiSaver Scheme set out in the PDS.
- I confirm my selected PIR is correct.
- **I understand the value of my investment in the Scheme can rise and fall depending on market conditions and other circumstances prevailing at the time, and that there is no promise or guarantee made by any person as to the performance of any investment or the return of any funds invested.**

6 | Identity verification

NZ Funds is required by the Anti-Money Laundering and Countering Financing of Terrorism Act 2009 (AML/CFT Act) to collect identity and address information on its clients. All new clients must complete identity and address verification and provide the appropriate documents. Existing clients may be required to complete identity and address verification or update their identity documents. NZ Funds or your financial adviser will advise if this is required.

There are **three options** to complete identity verification:

Please tick option selected.

Option 1

Electronic identity verification by your financial adviser

- You do not need to complete section 6.
- Your financial adviser will need to attach a completed Electronic Verification Certificate.

Option 2

Documents verified face-to-face by your financial adviser or an NZ Funds employee*

- Please complete section 6A and take your original documents along to your financial adviser or an NZ Funds office to have section 6C(i) completed.

Option 3

Documents certified face-to-face by a Trusted Referee**

AND

Verified by your financial adviser or an NZ Funds employee*

- Please complete section 6A and take your original documents along to a Trusted Referee to certify your documents and complete section 6B.
- Please send the original certified copies to your financial adviser who will verify these and complete section 6C(ii). If you do not have a financial adviser, please send this form and original certified copies to: New Zealand Funds Management Limited, Private Bag 92226, Auckland, 1142.

* To complete verification, the adviser, employee or other authorised person must be listed on NZ Funds 'Register of Individuals Authorised to Perform CDD'.

** A **Trusted Referee** must be either a Justice of the Peace, a Lawyer, a Notary Public, a Chartered Accountant, a Registered medical doctor or a Registered teacher. A Trusted Referee cannot:

- Be your spouse or partner;
- Be related to you;
- Live at the same address as you; **or**
- Be involved in the transaction or business requiring certification.

Where documents are being certified outside of New Zealand, your Trusted Referee must be a person who is authorised to take statutory declarations under the laws of the country, state or territory where the documents are being certified.

Important

- Document certification by a Trusted Referee must occur no earlier than three months prior to the date of presentation.
- Please ensure certified copies of the original documents are attached to this form.
- Where an individual is unable to supply documents as required, please contact NZ Funds on **0508 733 337** or via email at clientservices@nzfunds.co.nz.

6A | Documentary identity verification

Identity verification

To verify your identity, select **ONE** of the ID combinations and tick which document(s) you are providing below:

ID Combination 1

- Passport **OR**
 NZ firearms licence

ID Combination 2

- NZ driver licence
And **ONE** of the documents listed below:
 Credit, debit or eftpos card
(including name and signature)
 Bank statement
 Government agency document
(e.g. IRD correspondence)

ID Combination 3

- NZ driver licence **OR**
 18+ card/Kiwi Access card
And **ONE** of the documents listed below:
 Full birth certificate
 Citizenship certificate

Residential address verification

To verify your residential address, select **ONE** of the options below. This document must be no more than six months old.

- Bank or financial institution statement
 Rates or house insurance document
 Utility document (e.g. electricity, gas, water, landline telephone or Sky TV)
 Government agency document (e.g. IRD correspondence)

Digital (PDF) versions of utility and house insurance documents are acceptable if they show you to be responsible for a fixed non-movable service at the address. Digital (PDF) versions of bank statements and Government agency documents can be used for both identity and address verification.

For persons under 18 years of age

If none of the identity options are available, please provide:

- Birth certificate

If none of the residential address options are available, please provide:

- Proof of the parent's or guardian's address where the minor resides.

6B | Certification by a Trusted Referee

This section is to be completed if documents are not being verified face-to-face by your financial adviser or an NZ Funds employee.

Name
I confirm that

- I have seen the original documents selected above, each of which represents the identity (i.e. name, date of birth and residential address) of the applicant.
- I have signed copies of those documents and attached these to this form.
- The copies of those documents attached are true copies of the original documents of the applicant seen by me today.
- I am a (tick **ONE** of the following):

- Justice of the Peace
 Notary Public
 Registered medical doctor
 Lawyer
 Chartered Accountant
 Registered teacher

Signature of trusted referee

2 | Identity verification

NZ Funds is required by the Anti-Money Laundering and Countering Financing of Terrorism Act 2009 (AML/CFT Act) to collect identity and address information on its clients.

All new clients must complete identity and address verification and provide the appropriate documents.

Existing clients may be required to complete identity and address verification or update their identity documents. NZ Funds or your financial adviser will advise if this is required.

There are **three options** to complete identity verification:

Please tick option selected.

Option 1

Electronic identity verification by your financial adviser

- You do not need to complete section 2.
- Your financial adviser will need to attach a completed Electronic Verification Certificate.

Continued over...

Option 2

Documents verified face-to-face by your financial adviser or an NZ Funds employee*

- Please complete section 2A and take your original documents along to your financial adviser or an NZ Funds office to have section 2C(i) completed.

Option 3

Documents certified face-to-face by a Trusted Referee**

AND

Verified by your financial adviser or an NZ Funds employee*

- Please complete section 2A and take your original documents along to a Trusted Referee to certify your documents and complete section 2B.
- Please send the original certified copies to your financial adviser who will verify these and complete section 2C(ii). If you do not have a financial adviser, please send your form and original certified copies to: New Zealand Funds Management Limited, Private Bag 92226, Auckland, 1142.

* To complete verification, the adviser, employee or other authorised person must be listed on NZ Funds' Register of Individuals Authorised to Perform CDD:

** A **Trusted Referee** must be either a Justice of the Peace, a Lawyer, a Notary Public, a Chartered Accountant, a Registered medical doctor or a Registered teacher. A Trusted Referee cannot:

- Be your spouse or partner;
- Be related to you;
- Live at the same address as you; or
- Be involved in the transaction or business requiring certification.

Where documents are being certified outside of New Zealand, your Trusted Referee must be a person who is authorised to take statutory declarations under the laws of the country, state or territory where the documents are being certified.

Important

- Document certification by a Trusted Referee must occur no earlier than three months prior to the date of presentation.
- Please ensure certified copies of the original documents are attached to this form.
- Where an individual is unable to supply documents as required, please contact NZ Funds on **0508 733 337** or via email at clientservices@nzfunds.co.nz.

2A | Documentary identity verification

Identity verification

To verify your identity, select **ONE** of the ID combinations and tick which document(s) you are providing below:

ID Combination 1

- Passport **OR**
- NZ firearms licence

ID Combination 2

- NZ driver licence
- And **ONE** of the documents listed below:
- Credit, debit or eftpos card (including name and signature)
 - Bank statement
 - Government agency document (e.g. IRD correspondence)

ID Combination 3

- NZ driver licence **OR**
 - 18+ card
- And **ONE** of the documents listed below:
- Full birth certificate
 - Citizenship certificate

Residential address verification

To verify your residential address, select **ONE** of the options below. This document must be no more than six months old.

- Bank or financial institution statement
- Rates or house insurance document
- Utility document (e.g. electricity, gas, water, landline telephone or Sky TV)
- Government agency document (e.g. IRD correspondence)

Digital (PDF) versions of utility and house insurance documents are acceptable if they show you to be responsible for a fixed non-movable service at the address. Digital (PDF) versions of bank statements and Government agency documents can be used for both identity and address verification.

Continued over...

2B | Certification by a Trusted Referee

This section is to be completed if documents are not being verified face-to-face by your financial adviser or an NZ Funds employee.

Name
I confirm that

- I have seen the original documents selected above, each of which represents the identity (i.e. name, date of birth and residential address) of the Individual.
- I have signed copies of those documents and attached them to this form.
- The copies of those documents attached are true copies of the original documents of the Individual seen by me today.
- I am a (tick **ONE** of the following):

Justice of the Peace

Notary Public

Registered medical doctor

Lawyer

Specific conditions relating to notices and disputes

I may ask my bank to reverse a direct debit up to 120 calendar days after the debit if:

- I don't receive a written notice of the amount and date of each direct debit from the initiator, or
- I receive a written notice but the amount or the date of debiting is different from the amount or the date specified on the notice.

The initiator is required to give a written notice of the amount and date of each direct debit in a series of direct debits no less than 10 calendar days before the date of the first direct debit in the series. The notice is to include:

- the dates of the debits, and
- the amount of each direct debit.

If the bank dishonours a direct debit but the initiator sends the direct debit again within 5 business days of the dishonour, the initiator is not required to give you a second notice of the amount and date of the direct debit.

If the initiator proposes to change an amount or date of a direct debit specified in the notice, the initiator is required to give you notice:

- no less than 30 calendar days before the change, or
- if the initiator's bank agrees, no less than 10 calendar days before the change.

Our investment approach

The NZ Funds KiwiSaver Scheme is designed to enable Members to accumulate wealth for their retirement. Members may be able to also use some or all of their balance as a first home deposit or when facing financial hardship.

The Scheme aims to maximise the growth of Members' balances over the long term. To achieve this goal our Balanced Fund provides an entry level option using a passive investment management style, while our Strategies use a unique active investment approach.

We build portfolios with allocations to shares and bonds (like other managers do) but then add, at times, significant exposures to additional asset classes such as derivatives, commodities, hedge funds, digital assets and other alternative assets, to seek to enhance gains or mitigate the downside.

Our use of derivatives also creates 'leverage' by effectively allowing us to get a return on more money than has been invested with us. This means any gains on your investment are increased by the gains on those derivatives and any losses on your investment are also increased by the losses on those derivatives.

As a result, an investment in the NZ Funds KiwiSaver Scheme has particular risks associated with our investment approach. Scheme Members have the potential for greater gains – and losses – than Members of many other schemes.

We use a combination of asset class limits, guideline ranges and target investment mixes in the oversight of the Balanced Fund and the Strategies. These are designed to ensure the Balanced Fund and the Strategies invest in accordance with their investment objective and timeframe.

The authorised asset class limits are the maximum exposure that the Balanced Fund or a Strategy may have to an authorised asset class. The guideline ranges are the ranges within which the Balanced Fund and each Strategy will normally (but not always) invest in the authorised asset classes over the course of an economic cycle. The target investment mix is the expected target investment mix for the Balanced Fund and each Strategy over the business cycle.

Before you join, NZ Funds recommends you speak to your financial advice provider about whether the NZ Funds KiwiSaver Scheme is right for you and if so whether the Balanced Fund, Self Select or Life Cycle is most likely to meet your KiwiSaver objectives.

NZ Funds offers three options within our KiwiSaver Scheme

1 Balanced	2 Self Select	3 Life Cycle
	<p>Likelihood of higher balance at retirement*</p> 	
<p>The Balanced Fund is a simple option with zero management fee available for everyone but great for someone starting out on their wealth journey</p>	<p>Who's it for? Self Select allows you to customise your asset allocation to suit your needs</p>	<p>Our proprietary Life Cycle software adjusts your asset allocation automatically as you age</p>
 <p>Fixed</p>	<p>Asset allocation*</p>  <p>Manual</p>	 <p>Automated</p>
<p>Passive Passively managed with no downside mitigation</p>	<p>Active or passive management? Active Access to three actively managed strategies with downside mitigation</p>	<p>Active Allocation into three actively managed strategies with downside mitigation and automated asset allocation</p>
	<p>All our funds are responsibly invested!</p> 	
 <p>Access our call centre</p>	<p>What if I need advice? </p> <p>Personal financial adviser</p>	 <p>Personal financial adviser</p>
<p>0%</p>	<p>Management fees** 1.12-1.65%</p>	<p>1.39-1.60%</p>

* Likelihood of a higher balance at retirement in Self Select will be highly impacted by Members' Strategy allocations over time. The Balanced Fund and the Strategies have different risk profiles. See page 11 for more information on risk, or talk to your financial advice provider.
